The image displays two views of an Su-25 aircraft, showing its camouflage paint scheme. The top view is a side profile from the left, and the bottom view is a side profile from the right. The aircraft features a dark brown upper body and a light blue lower body. The tail fin is painted with a dark brown base and a light blue upper section, with a red star insignia. The number '50' is painted in red on the nose and the tail fin. The number '26' is painted in black on the nose, and the number '14' is painted in black on the tail fin. The aircraft is shown in a camouflage paint scheme, with the upper body and tail fin painted in dark brown and the lower body and tail fin painted in light blue. The number '50' is painted in red on the nose and the tail fin. The number '26' is painted in black on the nose, and the number '14' is painted in black on the tail fin. The aircraft is shown in a camouflage paint scheme, with the upper body and tail fin painted in dark brown and the lower body and tail fin painted in light blue. The number '50' is painted in red on the nose and the tail fin. The number '26' is painted in black on the nose, and the number '14' is painted in black on the tail fin.
